

Help us improve local mental health services for BME communities

Our Trust wants to improve the care we offer to all service users regardless of their ethnic background, race, culture or faith.

We need service users or carers from local Black and Ethnic Minority (BME) communities to work with our health professionals to help us improve the way we deliver services as part of our Open Mind project.

You will need to attend three, half-day training sessions and a focus group meeting four times per year. Travel expenses will be reimbursed.

This information can be provided in a different language or format upon request.
