Making a difference

Donations to Norfolk and Suffolk NHS Foundation Trust charitable funds are kept separately from NHS income and really make a difference to the people who use our services.

We provide equipment and activities that are above and beyond those funded by the NHS, and in doing so make a genuine difference for patients, families, carers and the staff who look after them.

Over recent years we have been able to support a wide range of initiatives to support people of all ages:

- Garden equipment for service users to enjoy in outside areas
- Raised beds to give service users easier access to gardening activities
- Learning Disability Toolkits to support people with learning disabilities who access our services
- Art projects involving service users
- Books, games, CDs and toys to support activities on our wards

The importance of your support

The foundation upon which this important work is made possible is the personal donations, legacies, grants, and corporate funding we receive on behalf of our service users.

Your donation

Your donation, no matter how large or small, can help make a difference too

Some people donate to support their local hospital or team and others more generally to the funds. All types of donation are welcome but the less restricted they are, the less it costs to administer them and the easier it is for them to make a difference where it counts.

About the funds

Norfolk and Suffolk NHS Foundation Trust was formed in January 2012 through the merger of Suffolk Mental Health Partnership NHS Trust and Norfolk and Waveney Mental Health Foundation Trust.

The charitable funds are registered with the Charities Commission and are independently audited.
